MY DAD DIED AND FOR A YEAR
I spent time on every drug
accessible.

Failed ~~second~~ SECOND year

Took in a vision board begging
them to let ~~to~~ me back into

Salford.

My goals on the vision

board, drew visions of me in New York,

A me, studying in the library and

a me getting good grades.

Christine and Rachel let me
re-sit.

within 6 months id gottan all
first and gottan an offer
from 3 ~~the~~ intern's in New York.

I remember going to Dan
and saying "I've only got
£250 I cant afford it".

Dan said just go.

I landed in New York with
50 dollars, minus \$17 that id
accidentally spent on over priced

Mac + cheese, leaving me with

\$33 crying in Central park.

All my interships ignored me.

2 days later I got an Email

New York (2017)

"lets meet" from Richard kern.

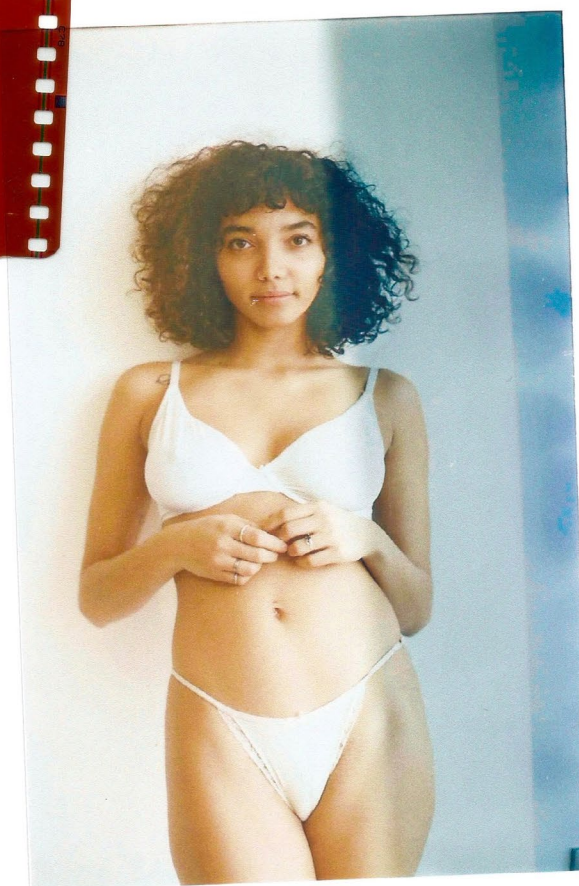

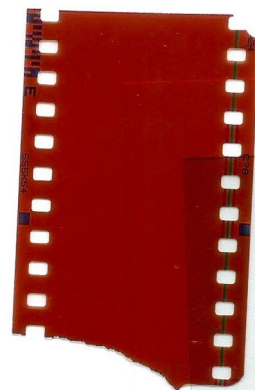

Then everything changed.

MONEY is NO obsitical, NOT having
Persistance is an obsitical.

Richard kern said before I left
that I should champigne
LGBT people in my work.

I got angry that no one other than
gay men had a voice.

I came back and used my
Anger + voice.
